Tablet Stand FoldineX

Extremely portable Tablet Stand with unique X-style folding design and finest material appearance

6 screen inclinations selectable

Non-slip silicone pads add stability of tablets on FoldineX, avoid tablets to become scratched and avoid FoldineX to scratch desk.

Ergonomic benefits

Researchers have found that tablet users have a higher potential for "neck and shoulder discomfort" compared with using a notebook or a desktop computer. The worst way to use your tablet computer is on your lap. Whether you are watching a movie or typing, keeping your tablet on your lap places greater strain on your neck and shoulders, which can result in pain and potentially more serious posture issues in the long run.

Putting the tablet flat on a desk does not help you much because there is a natural tendency to hunch over the tablet.

+   Putting your tablet on FoldineX with a height adjustment for viewing comfort lifts your tablet high off the table, allowing you to work with a straight back.

+   FoldineX is extremely lightweight (only 236 g) to handle and carry with

Other benefits

+   FoldineX supports tablet on it up and down and keeps thus tablet more stable than tripod stands.

+   Non-slip silicone pads add stability of tablets on FoldineX, and avoid tablets to become scratched and avoid FoldineX to scratch desk

+   Unique X-style design allows to adjust width according to both vertical and horizontal mounting of tablet

+   6 tilts selectable

+   FoldineX folds up utmost neatly to size 4.3 x 24 x 1.5/2 cm and is thus extremely portable

+   Fabric pouch helps FoldineX not to scratch other objects in same briefcase or bag

+   Aluminium alloy material gives finest appearance to FoldineX
