Cable Basket Caba

Beside cables you can load Caba with heavier things like extension cords and transformers.

Ergonomic benefits

 Easy unloading and reloading ways decrease hunching in uncomfortable position under desk.

At your choice you can

- · take basket down on floor
- make use of free long side of Basket

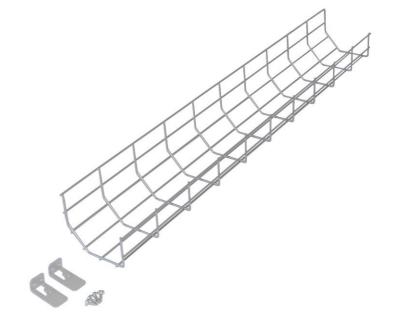

- Once the Cable Basket has been installed under desk there is no more need to unscrew Basket and screw it up again for unloading and reloading.
- + Cable Baskets come with all necessary bracket hooks and screws.

15011-10 | Cable Basket Caba, silver - 800 mm

Hint of use

Cable Grip Holdirex suits well for hanging cables under desk further from Basket.

Caba comes with all necessary bracket hooks and screws

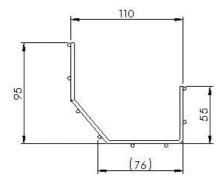

Beside cables you can load Caba with heavier things like extension cords and tranformers

Combined use of Cable Basket Caba and Cable Grip Holdirex
